**Conduct Unbecoming is a military courtroom drama. Commander Mike DeMarco, the Navy's most successful criminal defense attorney, is fed up with the bureaucracy and contemplates retirement. This eBook collection includes Unwind; UnStrung: an Unwind story; and UnWholly. In Unwind, follow the breathtaking adventures of three teens on the run: Connor, a rebel whose parents have ordered his unwinding; Risa, a ward of the state who is to be unwound due to cost-cutting; and Lev, his parents' tenth child, whose unwinding has been planned since birth as a religious tithing.

Between the end of Unwind and the beginning of its sequel, UnWholly, there is UnStrung—an exclusive short story that provides an unprecedented look at how Lev becomes someone willing to do the unthinkable. And in UnWholly, Connor, Lev, and Risa meet Cam—a futuristic Frankenstein made entirely out of the parts of other Unwinds—and question humanity itself in the process.

**Cooper demonstrates how the lure of the open air, from rooftop schoolrooms to open-air theaters to the front porch, challenged air conditioning. Americans were slow to give up the social rituals of hot-weather living - the cold drink, the cool clothes, the summer vacation - for the comforts of either the window air conditioner or the central system.**

Tallinn Manual 2.0 expands on the highly influential first edition by extending its coverage of the international law governing cyber operations to peacetime legal regimes. The product of a three-year follow-on project by a new group of twenty renowned international law experts, it covers such topics as sovereignty, state responsibility, human rights, and the law of air, space, and the sea. Tallinn Manual 2.0 identifies 154 'binding' rules governing cyber operations and provides extensive commentary on each rule. Although Tallinn Manual 2.0 represents the views of the experts in their personal capacity, the project benefitted from the unofficial input of many states and over fifty peer reviewers.

*John M. Ford's The Scholars of Night is an extraordinary novel of technological espionage and human betrayal, weaving past and present into a web of unbearable suspense. Nicholas Hansard is a brilliant historian at a small New England college. He specializes in Christopher Marlowe. But Hansard has a second, secret, career with The White Group, a "consulting agency" with shadowy government connections. There, he is a genius at teasing secrets out of documents old and new—to call him a code-breaker is an understatement. When Hansard's work exposes one of his closest friends as a Russian agent, and the friend then dies mysteriously, the connections seem all too clear. Shaken, Hansard turns away from his secret work to lose himself in an ancient Marlowe manuscript. Surely, a lost 400 year old play is different enough from modern murder. He is very, very wrong.
