

Loneliness Updated

Loneliness Updated offers the latest research on how loneliness can affect us in our daily lives, and how it is expressed as we travel through life from childhood to old age. It will be a highly interesting read for scholars, students and researchers of clinical psychology, particularly those interested in further exploring the effects and consequences of loneliness.

The worst loneliness is not to be comfortable with yourself.–Mark Twain “ A man is never completely alone in this world. At the worst, he has the company of a boy, a youth, and by and by a grown man –the one he used to be.–Cesare Pavese “ Loneliness expresses the pain of being alone and solitude expresses the glory of being alone.–Paul ...

Loneliness Updated: An Introduction – ResearchGate

Loneliness Updated

Loneliness carries a significant social stigma, as lack of friendship and social ties are socially undesirable, and the social perceptions of lonely people are generally unfavorable. Lonely people often have very negative self-perceptions, and the inability to establish social ties suggest that the person may have personal inadequacies or socially undesirable attributes (Lau & Gruen, 1992).
