

# *The Pet Problem*

~~The Pet Problem – The New York Times  
Pet Behaviorist | Dog Behavior Problems~~

Pet exposure may cause sneezing and wheezing. An estimated 10 percent of the population may be allergic to animals, and 20 to 30 percent of individuals with asthma have pet allergies. The best types of pets for an allergic patient are pets that don't have hair or fur, shed dander, or produce excrement that creates allergic problems.

The Pet Problem (Disney/Pixar Toy Story) (Little Golden Book) Hardcover – Illustrated, August 9, 2011. Find all the books, read about the author, and more.

“ Pet overpopulation is a serious problem, and we are hoping that opening an affordable spay and neuter clinic in St. George will have an impact locally on preventing this issue, ” said Dr. Katie...
